

THE ULTIMATE AUTOMOTIVE ADVENTURE

If a healthy dose of adrenaline is what you're looking for, look no further. Team O'Neil is the premier training facility in the country to develop loose surface driving skills and overall car control. Learn to skid through turns like Team O'Neil grad and Gymkhana creator Ken Block, or just improve your confidence and safety behind the wheel. Whether you are a professional driver or just an average Joe (or Jane), we will teach you the skills you need to succeed in any driving situation.

COURSES OFFERED

We offer 1 to 5 day Rally courses specializing in all aspects of competitive rally racing from beginner to advanced level instruction, winter safe driving courses for any level driver, off-road training & personal security courses for individuals, private security and government agencies. Bring a friend and save...group discounts are available. Call or visit our website for more information on all course availability, pricing and FAQ's.

"This school is the dream of every kid who ever pulled a donut in the K-mart parking lot"

-Maxim Magazine

"Team O'Neil is probably the best damn driving-school on the planet. It's also fun as hell."

- Jalopnik.com

LEARN FROM THE BEST

In 1997 Team O'Neil opened its doors with only a skid pad and slalom. 5 time North American rally champion Tim O'Neil hand built over 10 miles of corners, crests, junctions, and even a few small straightaways on a privately owned 600 acre facility in the beautiful White Mountains of New Hampshire.

Tim personally selected the staff from automotive experts around North America. The staff includes SP Rally Champion and X-games competitor Travis Hanson, 2WD Rally Champion Wyatt Knox, Subaru Rally Team USA Mechanic & Off-Road expert Chris Komar, Rally X Champ Brent Trail, and several other highly qualified instructors.

Team O'Neil is the only all dirt, purpose built rally school in North America.

LEARN BETTER CAR CONTROL

Have you been in an accident that you could have avoided? Are you nervous about driving in the snow? Are you looking to improve your confidence and skills behind the wheel? We teach you how to be prepared and confidently maneuver your vehicle when unexpected circumstances arise.

THE CARS

- Ford Fiesta
- Audi Quattro
- Subaru Impreza
- BMW 325i

Team O'Neil now has Subaru WRX's and Ford Fiesta ST's for use on the 4th and 5th day rally school *

WHAT IS RALLY RACING?

Boiled down, rally racing is getting from A to B as fast as possible, usually on the worst roads (dirt, snow, and ice), without crashing or breaking your car. We at Team O'Neil know that not everyone wants to be a professional rally racer, but teaching you the skills we have learned over decades of racing will help you develop better car control in all conditions - while you have so much fun you'll forget you're learning.
